2023 Pool Maintenance Contract

Enclosed is our Maintenance Program for 2023. **Please be advised of the price changes!** If you wish to enroll for this season, please read over the following pages and fill out the Maintenance Contract. You may keep the first 2 pages for your reference. Once you have completed the form, you can either mail, fax or drop off your contract. Upon receipt of your contract, we will contact you for scheduling. If you have any questions please call Sandy in our Service Department at 309-565-4530.

Pool Type	Water Test Only With Instructions	Water Test and Treat	Cleaning Services
Above Ground	\$25 per visit	\$30	\$70
In Ground	\$25 per visit	\$30	\$70
Spa	\$25 per visit	\$30	N/A
Pool AND Spa	\$30	\$35	N/A

***Above pricing is labor ONLY. Chemicals and/or additional materials are billed at time of service at the standard retail price. **Please be advised that we only add chemicals purchased from D & L Pools, Inc. Pools that use other than D & L Pools chemicals will not be serviced.**

Description of Pool Cleaning Services:

Vacuum pool bottom, brush pool floor, walls and waterline, and empty all pump and skimmer baskets

Backwash sand filter, bump D.E. filter, or hose off cartridge filter as needed

Chemically clean filter once a month if applicable

Inspect all equipment for proper operation

This service does not include cleaning of robotic vacuums.

Description of Water Testing Services:

Test and balance water (if requested)

Empty pump and skimmer baskets

Inspect all equipment for proper operation

If you have pets that are outside in the yard we ask that you please have them penned up during the time we are at your house for your service. If animals are out at the time of service it is at the discretion of our service personnel whether they feel comfortable to do the service or if the service time will need to be rescheduled.

Conditions of Maintenance Contract

1. The gallons in your pool is used to calculate the necessary amount of chemicals needed to balance your pool. Please provide all pool and equipment information as accurately as possible.
2. If your pool/spa is in a secured area, we ask you to provide us with a key marked with your name or code necessary to get into the area. **If you have pets, please have them contained on your service day.**
3. Your pool maintenance is performed on a weekly, twice weekly, twice monthly or monthly basis. **Please note that not all chemicals can be added at time of water test and treatment, so instructions will be left with you, the homeowner, to add at the appropriate time.**
4. Since every pool/spa is unique we cannot provide specific times of cleanings or chemical treatments. If more than one visit is required to clean your pool/spa after spring opening, additional charges will be assessed based on your need. We will make every attempt to schedule additional maintenance when requested. Any additional maintenance calls will be billed at your weekly rate at time of maintenance.
5. **We ask that you maintain proper water levels in between visits.** Evaporation and swimmer splash out are the most common reasons you need to add water. The water level should be at the middle of the skimmer for us to vacuum or maintain your pool/spa. If we need to add water to the pool/spa you will be charged our regular hourly service rate for our technician to do so.
6. We also may need to adjust our schedule as needed due to weather conditions, holidays or other unforeseen conditions. If for any reason we need to reschedule your cleaning, you will be notified. If problems arise that interfere with your pool/spa maintenance between visits or you notice a problem, please contact us at 309-565-4530 as soon as possible.
7. Our technician will look over all your equipment at each visit. If our technician notices an issue with your equipment we will notify you immediately. Additional work to repair equipment will be done at our standard service rates.
8. **The cost of chemicals is not included in the weekly maintenance and chemical application.** Maintenance technicians only apply chemicals purchased from D & L Pools, Inc.
9. Please be advised that **it is the customer's responsibility to maintain their pool/spa between our visits.** This is necessary due to events such as rain storms, large swimming loads, algae contamination, high winds, excessive heat, etc. If requested we can provide additional maintenance at an additional charge and on a time available basis.
10. D & L Pools, Inc. is not responsible for any grass, leaves, rocks, wind or weather conditions that may cause debris in the pool/spa after we have maintained it. It is also reasonable to see clouding of water after pool maintenance. Fine debris that has settled to the bottom of the pool can be pushed up into suspension after vacuuming. Most debris will either filter out or resettle.

Please send correspondence to: D & L Pools, Inc.
